

Brenda, et. al.

I wanted to quickly send you a message to say that as a byproduct to your work as the Charity Committee I had the great opportunity to personally meet some of the ladies that work with The Joshua House.

Team Venom participated in our League's Christmas Angel Gift Drive but I also reached out to Joshua House directly as my employees were looking to do some additional gift giving.

The moment I mentioned SSL to the staff that answered my phone call you could immediately tell in her voice that she knew who we were and she was thrilled at the support we had given. It was no different when I dropped off some gifts directly to Nancy who made a leaping expression put both of her hands to her cheeks and could not stop saying how great the members of our League were to be so generous and that "we love the SSL." I again know this was directly due to your hard work and great initiative.

I certainly wish many of you were present to experience her excitement, but I hope this email will suffice in delivering the message that you have done great work, and we all may not truly know the benefit nor the weight of the gifts that will be given out this holiday, but I rest assured that I know many people will be touched and that the true Spirit of this Holiday will be bright. I think everyone should be commended.  
Thank you.

Happy Holidays.

Sincerely,

Lee
